Hyderabad, Pakistan | +92 3480327686

Junior PHP/Laravel Developer with full-stack experience in PHP, MySQL, and JavaScript. Skilled in building responsive, scalable web applications with clean code and strong performance. Eager to contribute technical expertise to dynamic development teams.

Work Experience

Junior Software Engineer
Jan 2024 - Present

Fast Rural Development Program - FRDP | Hyderabad, Pakistan

Designed and developed a scalable Management Information System (MIS) using Laravel, streamlining operations through automation and secure workflows to boost organizational productivity.

- Built a scalable Management Information System (MIS) in Laravel to streamline HR, finance, and operational workflows.
- Implemented role-based user permissions ensuring data security and controlled access.
- Developed modules for recruitment, attendance, payroll, leave, travel, tasks, loans, and complaints management.
- Automated report generation to support decision-making across HR, finance, and operations.
- Improved efficiency and productivity by centralizing organizational processes into a single platform.

Web Developer / Computer Supervisor
Nov 2023 - Jan 2024

Chiniot Islamia Public School & College | Karachi, Pakistan

Managed and enhanced the school's website by updating content, improving functionality, and optimizing user experience to meet organizational requirements.

- Managed and updated the school's website content to align with organizational requirements.
- Enhanced functionality and user experience by implementing new features and ensuring responsive design.

PHP Internship
Sep 2023 - Oct 2023

DueClix.com (USA Based) | Karachi, Pakistan

Contributed to real-time PHP projects under senior developer supervision, gaining hands-on experience in PHP and Laravel development and debugging.

- Assisted in developing and debugging PHP-based applications, improving coding efficiency and project delivery.

PHP Intern
Feb 2023 - May 2023

Hidaya Institute of Science & Technology | Jamshoro, Pakistan

- Completed training in PHP, OOP, MySQL, JavaScript, AJAX, and Bootstrap.
- Designed templates and developed web applications during internship.

Web Development Trainee
CIRCLE Women (TechKaro)

Aug 2022 - Jan 2023

- Gained hands-on experience in full-stack development.
- Built projects focusing on logic building and responsive design.

Projects

EEG-based Human Emotions Identification using Deep Learning (FYP)

Oct 2021 - Sep 2022

Built models (LSTM, CNN, SVM) for EEG signal classification, achieving 85% accuracy.

Online Blogging Application

May 2023 - May 2023

Developed a blogging platform with authentication, CRUD posts, and responsive UI.

Group Chat Application

Apr 2023 - Apr 2023

Built a real-time group chat web app using PHP, AJAX, and MySQL.
